Advanced Smart Functionality, Durability, OHAUS Quality and Value

The OHAUS Defender™ 7000 Series is a feature-rich line of bench scales, combining a stainless steel D71XW indicator with a rectangular, painted steel base and a painted steel column. Ideal for shipping and receiving, production, packaging and general commercial and industrial weighing applications, the Defender 7000 offers a multifunctional indicator with multiple weighing units, alpha-numeric keypad and software modes to meet the requirements of industrial and lab applications. With rugged construction, comprehensive yet intuitive software and multiple connectivity options, the Defender 7000 can meet the needs of demanding industrial operations.

Standard Features Include:

- All steel construction with stainless steel indicator and painted steel column and base
- 5,000-7,500d default resolution
- Certified resolution up to 1:3,000
- Quick display of results using large dual line LCD with high-contrast white backlight
- Temporary display of 10x readability in weighing mode using quick key press
- Easy to operate with positive feedback 5-function key and alpha-numeric membrane keypad
- Weighs in one or more units: kg, g, lb, oz, lb:oz (decimal), tonnes and user-definable custom unit
- Multiple weighing modes including Counting, Percent Weighing, Dynamic/Animal Weighing, Checkweighing, Display Hold, and Accumulation
- 255 item Library data storage function
- Internal power supply with universal line cord or optional NiMH internal rechargeable power pack available
- Includes RS232 interface with GMP/GLP data output including date and time, and external analog base input for dual-base counting
- Base and indicator connected using quick connect plug
- Options include DC relay control kit, AC relay control kit, RS485/422 and 2nd RS232 interfaces, Alibi memory module
The Defender 7000 Offers Multiple Features and Easy Configuration:

To meet different operational needs, the Defender 7000 includes a suite of configurable software:

- Counting mode for packaging and inventory control, enabling counting into a container or out of a container for bulk operations. Supports a maximum counting resolution to 1:500,000 (minimum APW equal to 0.1d), selectable auto-optimization of average piece weight (APW). APW data can be displayed at any time using a quick key press.

- Percent Weighing mode for formulation and mixing applications, with display of reference weight with quick key press.

- Dynamic/Animal Weighing with selectable averaging times from 0-60 seconds.

- Checkweighing function for count and weight checking, with display of results using LCD display and red/yellow/green LEDs. Audible beeper can be configured to prompt when weight is within range, under, over, or under or over range. Target values can be displayed at any time using a quick key press.

- Display Hold mode for weighing large packages, holds last stable weight on display until cleared manually or automatically

- The Defender 7000 weighs in one or more user-selectable units: kg, g, lb, oz, lb:oz (decimal), tonnes and user-definable custom unit

- Supports GMP/GLP data output with date, time user ID, project ID and scale ID. The Defender 7000 features selectable print options for data and print format

- Software lockouts for menu items as well as individual key functions to limit operator access to functions

- Library storage for up to 255 memory records that may contain data from a combination of different modes. These reference data can be quickly and conveniently recalled for use with the active mode.

- Multi-language feature allows the user to display operation and menu text in the language of their choice: English, Spanish, French, German, Italian. This allows for convenience and ease of training and operation of the Defender 7000.

- Accumulation mode with statistics feature allows totalizing weight and count values manually or automatically. The total accumulated value is displayed in real-time. With the press of the "Info" key, the number of weighments, average, standard deviation, minimum, maximum and difference are displayed. These statistical values can also be printed.

- Dual scale connections are built-in for 2-scale counting configuration. Connect two bases, a higher resolution base to optimize average piece weight, in conjunction with a large capacity base to weigh/count in bulk.

- Store, view and print over 262,000 date and time-stamped weighing results with the optional Alibi memory kit

Outline Dimensions

Standard Features:

Optional NiMH Battery
Allows for use in environments where an electrical outlet may not be readily available

Internal Slot for Capacity Label
Protects label from the effects of moisture and external environments

Stainless Steel 304 NEMA 4X/IP66 Enclosure
Indoor/outdoor protection against falling dirt, rain, sleet, snow, windblown dust, splashing and corrosion

3-Color LED Checkweigh Indication
with configurable beeper alert

High-Visibility Dual Line LCD Display
with bright white LED backlight and fast display stable weight within 2 seconds

Included Table/Wall Mount Bracket
With large ergonomic adjustable knobs to maximize viewing angles.

Library Data Storage Function
Storage and quick recall of data records for up to 255 items

Hinged Front Cover
Only four sealing screws secure the housing for ease of servicing, while still ensuring IP66 seal integrity

One-Key, Multiple Mode Selection
Counting, Dynamic Weighing, Display Hold, Percent Weighing and Checkweighing

Universal Switching Power Supply
Automatically adapts to different voltages and frequencies; plug anywhere, anytime

Stay Connected/Output
Built in RS232 bi-directional interface and built-in external input, optional RS422/485, optional second RS232 and optional AC or DC relay. Optional Alibi memory kit for data recording and traceability

Durable Base Frame Construction
Stainless steel pans and painted steel form-and-weld frames (R, L bases) provide maximum durability, rigidity and structural integrity. Load-unload cycle tested to ensure long-term performance.

Painted Steel Columns
Available in both short and tall lengths

Fully Adjustable Feet
Four rugged, adjustable feet help prevent slippage on wet or uneven surfaces
